

QUALITY AND ENVIRONMENTAL POLICY

QUÍMICAS QUIMXEL, S.L., a company dedicated to the design, manufacture and marketing of chemical products for industrial maintenance, cleaning and disinfection and the design, manufacture and marketing of cosmetic products, promoted by the improvement of our systems of organization, production and especially services, safety and customer satisfaction, we have decided the implementation and development in the Company of an integrated Quality Management System (QMS), according to UNE-EN ISO 9001 and Environmental Management (EMS), according to UNE-EN ISO 14001.

These systems are based on the Quality and Environmental Policy of QUÍMICAS QUIMXEL, S. L., which is based on the following principles:

- ~ To manufacture and supply our range of Products fulfilling the customer's requirements as well as the applicable legal, normative, regulatory requirements and others that the organization may subscribe.
- ~ To consider Environmental Management and Protection as a task of all employees as the basis of our activity and operation.
- ~ Continuously improve the Quality and Environmental Management, through training and motivation of all staff QUIMXEL QUIMXEL, SL, promoting the prevention and / or minimization of pollution, establishing and reviewing the objectives and goals set.

The Environmental Management System (EMS), provides both our customers and internally the confidence that QUÍMICAS QUIMXEL, S.L. helps to protect the environment through the sustainable use of natural resources and the development of both ecological products (Ecolabel line) and label free (prioritizing the safety of both the environment and human safety).

The Direction of QUIMXEL QUÍMICAS, S.L. assumes the responsibility in order to comply with the Good Manufacturing Practices (ISO 22716).

Likewise, it trusts in advance in the collaboration of all the Company's Employees in the accomplishment of this important task and in the fulfillment of the responsibilities and dispositions that are assigned to them in the different documents of the System.

QUÍMICAS QUIMXEL, S.L. considers in its context the needs regarding climate change that may be raised by its stakeholders, establishing measures such as the optimization of water consumption (development of concentrated products).

As evidence of the commitments made, we make public this policy to each and every one of the people who belong to this company, as well as the availability of this to external stakeholders, encouraging collaboration in achieving the plans in terms of quality and environment.
